

ON DEMAND

Five Keys to Project Management Nirvana

Thursday, March 23, 2023

08:45 a.m. - 09:15 a.m.

This is a sponsored, on-demand session that is available anytime during the live event broadcast.

Common challenges in project execution & governance

1. Inconsistent project collaboration
2. Chasing information in disconnected systems and siloed data
3. Brittle reporting via spreadsheets and ad hoc structures
4. Complex nonstandard automation tools
5. Nonstandard or vendor-specific data connections

Innovative-e is modernizing project management through the collaborative power of Microsoft Teams and the Power Platform. Collaboration and project management go hand-in-hand enabling people to address these challenges within Teams for consistent experiences across projects.

SPEAKERS:

Mike Taylor, PMP
CEO of Innovative-e

Mike Taylor is founder and CEO of Innovative-e, his most recently led Microsoft-centric \$MM company. Mike began his career writing PPM software for NASA and has extensive experience as a PPM practitioner, community contributor/writer, and process and app producer. He lives in his hometown of Merritt Island, Florida.

Bryan Quick
Director of Sales, Innovative-e

Bryan Quick is director of sales and has been with Innovative-e for more than three years. He is a Microsoft alum of seven years, having previously managed the Microsoft Project business for U.S. financial services and Midwest accounts. Prior to joining Microsoft, Bryan spent most of his career in IT project management leadership. He lives near Jacksonville, Florida.
